The Town Crier Idea

We believe in the square deal.

We believe in our city, our state and our nation; in the sovereignty of each individual and the effectiveness of cooperation.

We believe in giving every man his chance.

We believe in looking up and out—not down and in.

We believe in the welcome hand, the alert ear and the open mind.

We believe in living in the future, not the past.

We believe in strenuous work, intensive study, wholesome play.

We believe in boosting when we can; keeping quiet when we can't.

We believe in the cultivation of fellowship; in doing business in a fair, human, business-like way that will permit and encourage those with whom we deal to make us their friends.

We believe in the power of the Truth, the Whole Truth and nothing but the Truth.

We believe modern Advertising to be the economic twin of Sales.

We believe in Salesmanship as the final link in the chain which binds Supply and Demand.

We believe in Vision yoked in harness with the Practical.

We look to the "Things That Are" as a basis—a justification—on which we may build the visioned structure of "Things That May Be."

THE PROVIDENCE DIRECTORY

AND

RHODE ISLAND STATE BUSINESS DIRECTORY

FOR THE YEAR COMMENCING MAY 1

1935

VOLUME XCV

STACK

Containing

Alphabetical Section (Page 201). Gives names, occupations and addresses of men and women eighteen years old or over, also all business houses. Wives' names are listed immediately after that of the husbands, enclosed in parentheses. Dates of deaths during the previous year are given, and where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Business Directory (Page 761) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Reference Department (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Map (opposite) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Street Directory (Page 31) A complete list of Streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

Miscellaneous Information (Page 13) Organization of City Departments, giving officers—Post Office branches—Parcel Post zones and rates—State officers and departments—U. S. officers and departments—Courts—Population tables—Calendar, etc.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1{,}067{,}500$$

Providence was founded in 1636 by Roger Williams. Incorporated in 1832. The oldest bank in America and the first Baptist meeting house in the country are located in the city. Brown University, founded in 1764, and many institutions of the early eighteen hundreds are within the city limits. The first directory of names and addresses of persons located in the city was published in 1824.

Providence is the second city of New England in point of population, a fact of special significance, inasmuch as the figures of the United States Census Bureau credit the city with 252,981 inhabitants, yet its area is only nineteen square miles. This City is the trading centre for an immediately adjoining population of fully five hundred thousand people; furthermore, if we include an extended area, the population of which turns to Providence more than to any other city, that trading population is increased to seven hundred and fifty thousand. Recent statistical estimates prepared for the Census Bureau with a view to establishing boundaries for Metropolitan Providence place it eleventh in area among cities of the United States.

Many factors contribute in making Providence a great city in respect, not only to population, but to industrial activity. Situated as it is on Narragansett Bay with its deep channel and other superior water facilities, the city is in a position to call to its service transportation by water as well as by rail. The activities of the Port of Providence increase year by year and they will expand at a tremendous rate when there shall be established in the city elevators which can supply grain cargo to fill the bottoms of ocean steamers.

Providence is more than usually well provided with excellent public utility facilities. Its Gas Company is known as the most efficient in the industry in New England. Its highly efficient electric service has grown to very large proportions. The street railway system, now embodied in the Rhode Island Public Service Company, furnishes service not only within the city, but to many outlying points. Its telephone service is the equal of the best in the New England Telephone and Telegraph system, of which it is a part.

The densely populated industrial district of Providence, with its large population to be fed and clothed, is known in all parts of the United States as a distributing point of great importance. Because of the excellent educational opportunities offered, there is a large student population attending Brown University, Pembroke College, Providence College and various smaller private schools.

Providence is particularly fortunate in having a diversity of manufactures. It is not dependent on any one industry. The great industries which have distinguished the city for many years include textiles, jewelry, silverware, iron and steel. It has, for instance: the largest machine shop in the world; the largest finger ring manufacturer in the country; the largest file manufacturers in the world; the largest silverware manufacturers in the United States; the largest screw manufacturer in the world; one of the leading newspapers of the country, the Providence Journal. Back of these industries and supporting them is a great variety of products, large and small, that have a national reputation. Few cities in the United States send out daily so many small packages of so great a variety of manufactured articles as does Providence.

The city government has been carefully administered, hence Providence has one of the lowest municipal tax rates in the country, a low bonded indebtedness and numerous other advantages. Among the most important of these is the wonderful water supply now impounded in an area some seven miles from the city, and as large as the city itself, which ensures pure water for human consumption and a plentiful supply for fire emergencies.

Providence retail trade is prosperous, as it should be, in the centre of so great a population. Likewise the wholesale trade, which reaches out over an area extending into Connecticut, Massachusetts and other New England states.

Few cities have been more active in providing adequate facilities for the care of the sick and needy; its hospitals are equal to all demands. The municipality has been active in providing for its citizens those agencies, such as parks and playgrounds, that contribute to the promotion of life and health. The parks form the centre for annual events which attract hundreds of thousands of people for enjoyment and cultural development. Best known among these events is the Annual Festival of the Providence Festival Chorus in Roger Williams Park.

Providence is an attractive city in which to do business and to live in comfort and security. This is evidenced by its continued increase of population over that which follows a steady birth-rate, due to the coming from all parts of the country of investors of both capital and labor. Newcomers are accommodated in Providence as in few other cities with publicly conducted enterprises which ensure good health, excellent educational opportunities, good living conditions and satisfactory returns.

For those who are interested in obtaining general information or detail particulars regarding the municipality and business opportunities it is recommended they write to the Providence Chamber of Commerce.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Accurate Information is worth all it costs.

PROVIDENCE STREET DIRECTORY

Copyright, 1935, Sampson & Murdock Co., Boston, Mass.

Giving the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect. From this list, the location of any number on a street can be easily ascertained; for instance, wishing to know at what part of Westminster Street No. 1129 comes, you look at Westminster Street and find that Knight Street runs from 1069 and Bridgham Street from 1191, showing that 1129 Westminster Street would come about half-way between Knight and Bridgham Streets.

INFORMATION

in the mass seems like a dull proposition but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use of it however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much.

In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

CONSULT YOUR DIRECTORY

Accurate Information is worth all it costs.

A Buyer Wants Information

Does your copy tell him more than he already knew when he turned to the page bearing your advertisement?

Purchasing agents often tell us they find a concern specializing on just what they are looking for by turning to these descriptive spaces, but that in many cases insufficient information is given.

Whatever helps the buyer to find what he wants means business for the seller. Anyone referring to a directory advertisement does so because he is already **interested.** Therefore space need not be used to attract **attention** or **create desire.**

Treat the reader as you would a person coming directly to you, inquiring about your service or product with the idea of doing business. Don't let your prospect turn away from your ad without finding out why you are equipped to serve him.

THE MORRIS PLAN

WHAT YOU MUST BE SURE OF IN BORROWING

is the method of paying it back

The one important thing for you to think of in borrowing money is whether the method of paying it back is going to be practical for you.

In the nineteen years of Morris Plan financing in this state, that question has been most satisfactorily answered. The ever growing number of satisfied Morris Plan users is reasonable evidence that you can borrow here safe in the knowledge that repayment is easy, gradual, well within your ability.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity.

Put—"We are listed in the Directory" in all your copy.

Tie up your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the listings applicable to your business. The phrase will stick long after the advertisement has been mislaid and people will get in the habit of looking for your name when ready to purchase supplies which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

The A-B-C of Insurance

Against Business Loss Means That You Must be listed In The Great and Only Real Buyers Guide—The City Directory—The Publication That Lists Them All.

If you are not Properly listed you are missing the opportunity that is presented to every business concern to become a stockholder in this great enterprise on a co-operative basis. The dividends are the service and low prices. It is the greatest illustration of the socialistic principle of doing business that there is in our modern society. The City Directory is the book of the people and places every individual in the city on the same basis. This gives the small business the same opportunity as the large business—a truly democratic principle and a rare one today.

Give this matter your careful attention and be listed in the Great Information Bureau of the City where it can be instantly located. It is a card index system of the city with four different ways of indexing and nothing with a name and address exists that cannot be readily found by any person who knows their A-B-C's.

A Buyer Wants Information

Does your copy tell him more than he already knew when he turned to the page bearing your advertisement ? Purchasing agents often tell us they find a concern specializing on just what they are looking for by turning to these descriptive spaces, but that in many cases insufficient information is given.

Whatever helps the buyer to find what he wants means business for the seller. Anyone referring to a directory advertisement does so because he is already **interested.** Therefore space need not be used to attract **attention** or **create desire.**

Treat the reader as you would a person coming direct to you, inquiring about your service or product with the idea of doing business. Don't let your prospect turn away from your ad without finding out why you are equipped to serve him.

Are You
Leaving A Record For The Future?

It may prove a serious matter in years to come if by any chance you should be incorrectly listed in or left out of the City Directory. Cases have occurred where the evidence of the City Directory, as to residence or occupation, has had an important bearing on the disposal of a fortune. Business men, especially, should see to it that their firm's record is absolutely correct and all changes should at once be reported.

"Better Be Safe Than Sorry"

A small amount invested will list you under several lines of your business.

Modern Conveniences

Lost, sometimes, amid the more spectacular conveniences, such as the auto, telephone, radio, or aircraft, yet the

CITY DIRECTORY

is probably the greatest convenience of this or any other age. Ponder, for a few moments, on the service rendered by the city directory. It would not be stretching matters to say that it can accurately answer a million questions about the municipality it represents. Familiarize yourself with this truly wonderful book. Learn how to use it to the greatest advantage. Study the index and miscellaneous information section for a few moments. The gold mine of local facts and information will surprise you. You will learn things about your own city that you never knew before.

Too Late for This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Providence Directory.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe it's product is wise.
